GRAF Optimax High efficiency, self-cleaning, InTank filtration system.

- Filter specially developed for rain water harvesting
- Low maintenance; self cleaning
- 0.35mm (.01") mesh filter
- Transparent cover for easy maintenance
- Over 95% yield
- Self-cleaning filter
- Max. 3,750 sq. ft. with 4" connections
- Space saving filter technology integrated in the tank

Tank height should be set and plumbing pitched to best utilize existing grade. A site assessment should be done prior to installation to determine the optimum levels for filter and plumbing so as to provide positive drainage to tank and stormwater overflows.

RainFlo 3400 IG Rainwater Collection System

USER’S Responsibility
Untreated Rainwater is NON-Potable water. Warning do not drink water supplied from RainHarvest Systems rainwater systems and related equipment. We will be happy to offer suggestions on the use of our various products either by way of printed material or through direct contact with RainHarvest Systems team members. However, since we have no control over the use of our products once they are shipped, NO WARRANTY WHETHER OF MERCHANTABILITY, FITNESS FOR PURPOSE, OR OTHERWISE is made beyond the repair, replacement, or refund of purchase price at the sole discretion of RainHarvest Systems. Users shall determine the suitability of the product for the intended application before using, and the users assume all risk and liability whatsoever in connection therewith, regardless of any team members suggestions or statements as to the application or construction. In no event shall any remedy exceed the purchase price of the product. Consult local building codes for the system use.
